

A dialogue between two people, discussion about which vacuum cleaner to buy.

A: People don't realize, sometimes being at my house is like being a ring master at the circus. Life is full of high skilled mess makers.

B: Get a dirt devil!

A: What is this?

B: According to those emails, it is the only vacuum cleaner to give 100% suction 100% of the time.

A: Is that true? How come you call it a vacuum cleaner, it cleans carpets?

B: It combines powerful vacuum suction and spray mopping to lock away debris and absorb wet messes. It sucks in all the dust; most people don't even know.

A: So, it is easy to do a quick efficient clean up on even the toughest dirt?

B: The dirt devil handy, clearly presented, its twin tanks keep the dirty water separate from the clean water.

A: Even long hair and pet hair are no problem? Controls fierce animals?

B: From fur babies in training to artists. You can use a crevasse tool; you can almost get anywhere, just press clean.

A: Right to the edge, in one click?

B: To be clear here, one click and I have this super powerful handheld vacuum that has all the power I need. All in one disposable pad.

A: I love to see how dirty the pad gets. I deep clean carpets and floors. Messes don't take a break.

B: The vacuum that deep cleans now cleans itself.

A: It is showing its new tricks. You told me changing the bag is easy as ABC?

B: I didn't say that. We've said goodbye to the bag. The dyson is the first vacuum cleaner ever to work without a bag.

A: And of course, no loss of suction?

B: Believe me, the new hoover portable packs more power than any other vacuum cleaner. Leaving dirt no place to hide.

A: Typical vacuums have bristles that can leave gaps and leave hair. And this, cleaning after the dogs and the kids?

B: Now I have to tell you; it is an unbelievably complex subject. The new hoover portable is different from all other cleaners. Pick up the handheld vacuum that really picks up. Just look how much floormate deluxe has picked up, has a wide opening with a revolving brush.

A: It's almost like having an upright in the palm of your hand. A powerful digital motor in your hand. I have had other products before that don't do the job.

B: Please, it is a great product I use it a lot in the kitchen vinyl floor, hard wood floors and my tile in the bathroom. And then I have one marble floor upstairs in the bathroom. It works perfect in all of them.

A: To make their vacuum smaller, most others make their motors smaller and less powerful.

B: Here is something off the wall. If you are looking for a faster and more convenient to get your floor barefoot clean you need to get a symphony. Your carpets go through a lot every single day.

A: The biggest soup spill of the century or that set-in stain from months ago?

B: It is the revolutionary floor cleaner, vacuums and steam mops at the same time. Clearly, it even outperforms this corded vacuum on these everyday spills. Also dries incredibly fast.

A: It washes and dries. All at the turn of a dial?

B: Just push forward to wash and pull back to dry. Designed with precision, infused with power. That's why I use the amazing new floormate deluxe.

A: Nobody knew that, other machines exhaust microscopic particles into the air you breathe which can cause asthma and allergies.

B: Just remember, what you are seeing and what you are reading is not what is happening. This is the Dyson v6 hepa. Based on this revolutionary product will change your life and change the way you clean. The first triggerless carpet cleaner. Such a believer in this product. Now you don't have to compromise.

A: Large and small particles, fine dust and even hair, with no hair wrap?

B: You get excellent vacuum performance and excellent steam mop performance. The most powerful vacuum that is both lightweight and cordless.

A: It delivers twice the suction of any other cordless stick vacuum?

B: You don't have to pull the big heavy vacuum cleaner out it just makes it easier and fun. Powerful, steerable and light weight with attachments to get into those hard-to-reach places.

A: Something that I can grab fast? Love to take it into my car.

B: It does seem pretty clear. It is just click and go; it is light. It is portable. You carry it like a suitcase with self-winding flex and everything you need inside has admitted.

A: The power and how it steers with just a flick of the wrist. Instinctively powerful. I love it.

B: Yep, this too. I am finding myself using it a lot more often in my house because the shark self-cleaning brush roll removes the hair wrap while I clean. Plus, people don't know. The symphony steam eliminates 99.9 percent of germs and bacteria without using any harmful chemicals.

A: And there is even a separate brush for gently cleaning delicate wood floors! The dyson cordless can help me reach heights that I normally cannot reach.

B: For perfect balance up high. You clean the house single handed. Well, I think it combines advanced wind tunnel suction, which is kind of why I depend on my hoover wind tunnel air steerable.

A: Ready to clean efficiently, powerfully!

B: Yes, with its steel body, rich accessories, wide variety of services and 3 year guarantee the biggest vacuum cleaner brand. Take advantage of this extraordinary offer.

A: And I just love how light it is.

B: We now know, nobody likes to clean stairs and with the dyson cordless its quick and effective.

A: So, I got this. The new react in uprights and cordless. Spinning up to a 110 thousand rpm. Cleaning under furniture, along edges and corners. For a complete clean vacuum, spray mop and toss. With the dyson v6 hepa cordless has hepa filtration so it expels air cleaner than you breathe. Then just packs away as neat and tidy as a suitcase. For stairs, a mini motorized tool.

B: All that said, better together. If you order the dyson v6 hepa today you will receive the world's first certified asthma and allergy friendly cordless vacuum. On quote, you will always have access to our US based customer support center plus our 30 day no hassle money back guarantee. This is a limit time offer, so call today.

A: Purchase in a single payment and you will also receive a mini motorized tool absolutely free?

B: That's the new hoover portable. Get a special offer, when you buy yours today.

A: All for just 6 interest free payments of 49.99. So excited about this product!

B: Now really excited to bring you the symphony or these fine retailers near you.  
Exclusively hoover.

I don't think anybody should get credit for that  
We are a long way knowing how this will all play out  
It is just really beginning  
I don't think facts support that assessment  
In fact, what we do know is that  
I don't think it is a time to point fingers from the past or the present  
People should expect that  
I think the experts have all told us that probably  
They didn't agree with the  
They were supposed to be  
Apparently, that did not hold  
I think it was very serious error  
~~We now know~~  
While they are doing that there are no discussions as far as I know going on  
What I think was a  
Everyone can draw their own conclusions at this point  
~~On quote~~  
Stick with us and don't believe the crap you see from these people, the fake news  
~~Just remember, what you are seeing and what you are reading is not what is happening~~  
And I am quoting here  
~~All that said~~  
Who cares?  
~~I didn't say that~~  
You better read it again  
He said he didn't say it  
When she proclaims  
He says he didn't say it but he did  
The video clearly showing  
~~He also added this~~  
In this case it is  
Actually, doesn't prove  
I don't she probably has  
~~Well, I think~~  
The political scientist said  
~~Clearly~~  
Believe me  
~~People don't know~~  
~~Most people don't even know~~  
~~People don't realize~~  
Now I have to tell you, it is an unbelievably complex subject  
~~Nobody knew that~~  
More than ever before  
According to  
It shows that

~~I don't even know~~  
~~Is that true?~~  
Now whats true  
~~Based on~~  
~~According to those emails~~  
~~To be clear here~~  
~~Clearly presented~~  
He didn't know  
They didn't know  
Clearly presented  
There are questions  
~~Has Admitted~~  
That actually is  
Documents reviewed by  
So the actual role  
But it is also true  
Pretty clear  
~~You told me~~  
He said that was based on assumptions made  
So if the knew  
And also assumed  
But  
About this study, it lacks a lot of context  
~~It does seem pretty clear~~
